LESSON

01 / 14

The Uncomfortable Truth

Most agency owners are technicians who got promoted to salesmen by accident. **They can build a funnel but they can't close a deal.** They blame the lead quality, the niche, the economy — anything but the real problem. Their sales process is broken.

THE HARD STAT

Industry average close rate for SMMA discovery calls: 15-25%. Top operators: 40-60%. Same leads. Same offers. The difference is sales skill. Master this module and you literally double your business without spending another penny on ads.

→ The 7 Deadly Sales Mistakes

MISTAKE 1

Pitching Too Early

Within 5 minutes, they're explaining their service, listing features, showing dashboards. The prospect hasn't even told them their problem yet. **Pitch before problem = no sale.** Always.

MISTAKE 2

Showing Up Unprepared

They open the call without knowing the prospect's business name, niche, revenue, or what answers they gave on the booking form. The prospect feels generic. Generic = no trust. No trust = no close.

MISTAKE 3

Talking More Than Listening

They talk 80% of the call. Should be 30%. **The prospect should be telling YOU their pain, their goals, their context.** If you're talking more than them, you're losing.

MISTAKE 4

Avoiding The Price Question

They dance around pricing. Hint at it. Make the prospect chase it. By the time price comes up, the prospect is annoyed and defensive. Price should be presented confidently, on YOUR timing.

MISTAKE 5

Caving To Objections

Prospect says 'let me think about it' — and they say 'sure, take your time, let me know.' Dead deal. Objections aren't endings, they're invitations to dig deeper. Most people don't know what to say.

MISTAKE 6

Selling From Scarcity

Desperation for the sale shows up in tone, in language, in body language. Prospects smell it instantly. **You must be willing to walk away.** Posture sells more than any tactic.

MISTAKE 7

No Clear Close

Call ends with 'I'll send you a proposal' or 'let me know what you think.' That's not a close — that's hope. A real close asks for the decision on the call. We cover this in PDF 09.

→ The Mindset Shift

OLD MINDSET

I Need This Sale

Anxiety. Pleading. Discounting. Cave-ins. Prospects feel it and resist. You close 15%.

NEW MINDSET

Let's See If We're A Fit

Calm. Curious. Disqualifying. Confident. Prospects feel it and lean in. You close 40%+.

You're qualifying THEM, not the other way around.

→ The Doctor Frame

THE MOST IMPORTANT CONCEPT

Approach every call like a doctor. Doctors don't pitch. They ask questions. They diagnose. They prescribe. The patient pays gratefully. YOU are the doctor. The prospect is the patient. Stop pitching. Start diagnosing.

→ What Top Closers Do Differently

AVERAGE AGENCY OWNER

- Talks 70% of call
- Pitches features in first 10 min
- Defensive about price
- Accepts 'I'll think about it'
- Hopes for the sale
- Ends call vaguely

TOP CLOSER

- Listens 70% of call
- Diagnoses for 15-20 min before pitch
- Confident, direct with pricing
- Reframes objections — keeps closing
- Walks away when not a fit
- Asks for the decision

→ The Skill That Compounds

BEGINNER CLOSE
RATE

COMPETENT CLOSE
RATE

EXPERT CLOSE
RATE

REVENUE AT SAME
LEAD VOL

This is the single highest-leverage skill in your business. Doubling your close rate doubles your revenue. Tripling it triples your revenue. Same leads. Same effort. Better skill.

*I was getting 8 calls a week and closing 1. I learned how to actually sell.
Same 8 calls, now closing 4-5. My revenue went from £4k to £19k in 60 days
— no extra leads, no extra ad spend, just real sales skill.*

COMMITMENT

Read Every PDF In This Module. Twice.

Sales is a SKILL not knowledge. Reading once gives you concepts. Reading twice + practising on real calls embeds them. Block time to study, practice, and apply. The members who treat this as their job make 3-5x more money.

END OF LESSON 01

Mindset Set.

Now let's get inside the buyer's mind — the psychology that drives every yes and every no.
