

# Pre-Call Preparation

The 10-minute prep ritual that doubles your close rate. Do it before every call. Non-negotiable.

# Win Before You Dial

Top closers prep for every call. Beginners 'wing it.' **The 10-15 minutes of prep before your call doubles your close rate** by giving you context, confidence, and customised hooks. Skip it at your peril.

## → The 10-Minute Pre-Call Checklist

### STEP 01

#### Pull Up Their Booking Form Answers (1 min)

Open their contact in GHL. Read every answer they gave. Note: business name, niche, revenue, biggest challenge, lead source. You should know this BEFORE saying hello.

### STEP 02

#### Visit Their Website (3 min)

Their homepage. Their about page. Their services. Are they doing roofing? Cabinets? Real estate? What's their visible brand quality? This shows up in your call as relevant questions and instant credibility.

### STEP 03

#### Check Their Social (2 min)

Instagram for visual evidence of their work. Facebook page for their reviews. LinkedIn for team size. Tells you their sophistication level and gives you natural rapport-builders.

### STEP 04

#### Google Their Reviews (1 min)

Google their business name + 'reviews.' How many do they have? What's their rating? Recent reviews? This tells you their reputation and gives you ammo to compliment them.

#### STEP 05

### Identify Their Biggest Bottleneck (2 min)

Based on what you've seen, what's their most likely pain? No reviews? No website conversion? Generic branding? Low Google ranking? This becomes your hook in the first 5 minutes.

#### STEP 06

### Set Your Outcome (1 min)

Before the call: write down YOUR desired outcome. 'Best case: close them at £2k setup + £147/appointment. Worst case: book a follow-up. Walk-away point: if budget is under £1k.'

## → What To Have Ready Before The Call

#### PRE-CALL SETUP

- ✓ Quiet room with no distractions
- ✓ Good headset (audio quality matters)
- ✓ Notepad open for live notes
- ✓ Their booking form answers visible
- ✓ Their website open in another tab
- ✓ Your pricing options memorised
- ✓ 2-3 relevant case studies ready to reference
- ✓ Calendar open for follow-up booking
- ✓ Water nearby
- ✓ Phone on silent

## → The Mental Prep (3 Minutes)

#### STEP 1

### Energy Check

Are you tired? Distracted? Stressed? Stand up. Take 10 deep breaths. Do 20 jumping jacks. **Your energy is felt through the line.** Low energy = low close rate.

## STEP 2

### Mindset Reset

Remind yourself: 'I'm not selling — I'm diagnosing. If we're a fit, I help them sign. If not, I help them find someone else.' Posture from abundance, not scarcity.

## STEP 3

### Visualisation

Picture the call going well. Picture them saying yes. Picture closing the deal. Sounds cheesy but it works — primes your subconscious for confidence.

## → The Pre-Call Note Sheet

Build a simple template you fill out before every call:

### PRE-CALL NOTES TEMPLATE

NAME: \_\_\_\_\_

BUSINESS: \_\_\_\_\_

NICHE: \_\_\_\_\_

REVENUE: \_\_\_\_\_

STATED CHALLENGE: \_\_\_\_\_

LIKELY REAL CHALLENGE: \_\_\_\_\_

HOOK TO OPEN WITH: \_\_\_\_\_

CASE STUDY TO REFERENCE: \_\_\_\_\_

MY DESIRED OUTCOME: \_\_\_\_\_

WALK-AWAY CRITERIA: \_\_\_\_\_

## → Pre-Call Outreach (Optional But Powerful)

### PRE-CALL SMS

## Send 1 Hour Before

'Hey [Name] — looking forward to our call at [time]. I've been looking at [their business] — got some thoughts to share. Make sure you're in a quiet spot — we'll cover a lot in 30 minutes.'

### WHY THIS WORKS

## Triggers Reciprocity + Reduces No-Shows

They feel YOU prepared for them. They feel obligated to show up. They feel guilty if they ghost. Pre-call SMS reduces no-show rate by 15-20%.

## → The Biggest Pre-Call Mistakes

### DON'T

- 'Wing it' with no prep
- Take call from a coffee shop
- Skip looking at their answers
- Eat during the call
- Multi-task during call
- Take call when stressed

### DO

- 10 min prep before every call
- Quiet room, good headset
- Read every form answer
- Be fully present
- Close all other tabs
- Reset energy first

## → Quick Math On Prep ROI

10 min

PREP TIME

2x

CLOSE RATE  
BOOST

£2k

PER CLOSE  
(TYPICAL)

£4k

PREP ROI

### THE MATH

10 minutes of prep that doubles your close rate is the highest-ROI activity in your entire week. If 1 out of 5 unprepared calls closes (£2k each = £2k from 5 calls), and 2 out of 5 prepared calls close (£4k from 5 calls), you just made an extra £2k from 50 minutes of prep across 5 calls. That's £2,400/hour.

### TODAY'S BUILD

## Create Your Pre-Call Template Now.

Copy the template above into Notion, Google Docs, or paper. Use it before EVERY call for the next 14 days. Track close rate before and after. The proof will silence any doubt.

END OF LESSON 03

# Prep = Locked In.

Now the master framework — exactly how to structure a 30-minute one-call close.
